

## Acute Care of At-Risk Newborns (ACoRN) Workshop Update

Due to the COVID-19 pandemic and the continued safety requirements and precautions that need to be fulfilled, all ACoRN workshops are cancelled for the year 2020. As per WorkSafeBC recommendations and restrictions, only required education will be taking place at this time. This step is being taken to ensure the safety of participants, instructors, and local communities.

### **For sites with an ACoRN workshop scheduled for fall 2020:**

Perinatal Services BC will do its best to reschedule your in-person session as soon as it is safe to do so in 2021. An email will be sent to you as soon as re-scheduling becomes available.

### **For sites interested in ACoRN:**

Please visit the [Perinatal Services BC website](#) for the latest information on scheduling an ACoRN workshop in 2021. We will do our best to accommodate as many sites as possible and as soon as it is safe to do so.

Future updates on ACoRN will be provided through the Perinatal Services BC website, [ACoRN page](#). If you have any questions please do not hesitate to connect with PSBC via email at: [psbc@phsa.ca](mailto:psbc@phsa.ca)

Thank you for your understanding.

**Jana Encinger, RN, MSN**

Director, Clinical Quality and Systems Improvement (Acute Care)
