

Delivering at BC Women's Hospital?

Help improve care for moms and babies in BC!

Lab tests are crucial to the care of pregnant women and newborns. Researchers at UBC and BC Women's Hospital are studying healthy pregnant women and babies to help care providers better interpret lab test results.

- What's required?**
1. Health questionnaire
 2. Blood sample from mom and baby at same time as routine blood tests (no extra poke required)
 3. Online survey to tell us about your experience

In total, this will take 30-45 minutes of your time. You will receive a \$5 coffee gift card as a token of appreciation.
